

PIPELINES 2025 CONFERENCE

Tampa, FL | August 9–13, 2025

Pipelines – Navigating the Unseen to Connect Critical Infrastructure and Resources

#Pipelines2025

Welcome to Tampa, Florida, for the UESI Pipelines 2025 Conference!

2025 is a milestone year. UESI celebrates "10 Years of Excellence in Sharing Knowledge, Driving Innovation and Growth," and our conference theme—"Navigating the Unseen to Connect Critical Infrastructure and Resources"—captures both the spirit of the anniversary and the vital work we do every day.

Why Tampa Shines

Framed by sparkling bay views and a revitalized Riverwalk, Tampa blends world-class attractions with a deep maritime and utility heritage—an ideal setting to explore how hidden networks quietly sustain thriving communities.

What Awaits You

- Two days of pre-conference workshops featuring the Large Diameter Pipeline Forum, Large Equipment Owners Forum, and Asset Management.
- 200+ presentations across 9 concurrent tracks of 72 sessions covering rehabilitation, design, trenchless technologies, Al driven system modeling, seismic resilience, leak detection, alternate project delivery, and more.
- Special events include the Emerging Leaders Program, the Diversity in Engineering breakfast, the UESI Golf Tournament, and a technical tour of the David L. Tippin Water Treatment Facility and the Hillsborough River Dam.
- Exhibit Hall packed with the latest products, services, and live demonstrations from leading suppliers.

 Earn up to 27.5 PDHs while strengthening your professional network.

Celebrating a Decade—Shaping the Next

For 10 years, UESI has empowered professionals to see beyond the surface, tackle unseen challenges, and deliver resilient, sustainable infrastructure. Join us in Tampa as we honor that legacy and chart the innovations that will define the next decade of pipeline engineering.

We can't wait to welcome you with warm Gulf Coast hospitality and an unforgettable week of learning, collaboration, and celebration!

Felipe Pulido, P.E., M.ASCE & Brad Baird, P.E.

Conference Co-Chairs, Pipelines 2025

Schedule-At-A-Glance

Saturday, Augus	t 9, 2025	,
	Workshop 250 – Large Diameter Pipeline Forum: Owners Perspective Sponsored by Xylem - Pure Technologies	Florida Ballroom Salon IV
	Pipeline Division Executive Committee Meeting	Meeting Room 3
-	Pipelines Journal Editorial Board Meeting	Meeting Room 2
12:30 PM - 3:30 PM	UESI Board of Governors Meeting	The Veranda Room
1:00 PM - 5:00 PM	Workshop 250 – Large Diameter Pipeline Forum: Users Only Session	Florida Ballroom Salon IV
	10, 2025	-
	Registration	TCC 2nd Floor
	Exhibitor Move-In	TCC Exhibit Hall 3rd Floor
	Workshop 224 – Large Diameter Pipeline Forum: Service Providers Pe Sponsored by Plastics Pipe Institute	
-	Seismic Design of Buried Water/Wastewater Pipelines Task Committee Meeting	Florida Ballroom: Salon I-II
10:00 AM - 11:30 AM	Emerging Leaders Program: Welcome Session	Grand Ballroom Salon E
	Pressure Pipeline Design for Water and Wastewater Committee	Meeting Room 3
	Pipeline Route Selection in Rural and Urban Areas Committee	Florida Ballroom: Salon VI
	Bedding, Backfill and Trench Shoring Systems Task Committee Mee	
	Emerging Leaders Program: Pipeline Research Symposium	Grand Ballroom: Salon F
	Pipe Bursting Task Committee Meeting	Florida Ballroom: Salon V
And the state of t	Testing for Seismic Evaluation of Pipelines Systems Standards (STEPS) Committee Meeting	Florida Ballroom: Salon I-II
	Utility Risk Management Division (URMD) Executive Committee	Florida Ballroom: Salon III
	Workshop 10 – Large Equipment Owners Forum	Meeting Room 5
	Workshop 369 – Asset Management Workshop	Meeting Room 4
	Inspecting Pipeline Installations (MOP 117 Revision) Task Committee	
TOTAL CONTROL OF THE STATE OF T	ASCE 38 Standard Guideline for Investigating and Documenting Existing Utilities Committee Meeting	Grand Ballroom: Salon H
	ASCE 75: Standard Guideline for Recording and Exchanging Utility Infrastructure Data Committee Meeting	Meeting Room 4
	Trenchless Installation for Pipelines (TIPS) Committee Meeting	Florida Ballroom: Salon IV
2:00 PM - 4:00 PM	Subsurface Utility Engineering and Investigation (SUE & I) Committee	Grand Ballroom: Salon G
2:00 PM - 4:00 PM	Pipeline Location and Installation Technical Committee	Grand Ballroom: Salon I
	Steel Penstock Design (MOP 79 Revision) Task Committee	Meeting Room 5
Yelestania de la companya del companya de la companya del companya de la companya	UESI Standards and Publications Council (USPC)	Meeting Room 2
	Emerging Leaders Program: Younger Member Engagement Committee Meeting	Grand Ballroom: Salon E
	Introduction to Trenchless Task Committee Meeting	Florida Ballroom: Salon IV
4:30 PM - 5:00 PM	Emerging Leaders Program: Younger Member Networking Receptio	
	Welcome Reception in Exhibit Hall Sponsored by Mid America Pipe Fabricating & Supply LLC	TCC Exhibit Hall 3rd Floor
Monday, August		
	Registration	TCC 2nd Floor
	UESI Doug Jenkins Student Competition	TCC 304-305
	Plenary Breakfast and Keynote – Rodney Kite-Powell Sponsored by Uni-Bell PVC Pipe Association	TCC Plenary 3rd Floor
9:00 AM - 10:30 AM	Pipeline Infrastructure (PINS) Committee Meeting	TCC 302
	Exhibits Open	TCC Exhibit Hall 3rd Floor
:	Networking Break in Exhibit Hall Sponsored by Wade Trim	TCC Exhibit Hall 3rd Floor
	Headshot Café Sponsored by Black & Veatch	The Waterview Lounge
	A1 - Innovative Pipeline Design and Access Solutions	TCC 124-125
	B1 - Innovative Rehabilitation and Design Strategies	TCC 122-123
	C1 - Transient Modeling for Pipeline Systems	TCC 120-121
	D1 - Pipeline Predictive Models	TCC 118-119
	E1 - PCCP Management	TCC 116-117
	F1 – And Now For Something Really Different	TCC 114-115
	G1 - Construction of Deep Tunnels	TCC 107-109
10:30 AM - 12:00 PM	OT - Construction of Deep Torineis	100 107-107
The second secon	H1 - Trenchless: HDD, Optimization, and Concrete Pipe Installation	

Track A, B & C	Track D & E	Track F & G	Track H & I	
Planning and Design	Condition Assessment	Construction and Rehab	Multidiscipline	

10.30 AM - 12:00 PM Lateral Rehabilation and Inspection fask Committee Meeting TCC 2001 and Tiboral and Tiboral			
Polithways to Professional Growth: An Introduction to UESI '5 Confidencies with Cvid Engineering Certification (ECC) 1.30 PM - 3.00 PM	10:30 AM - 12:00 PM	Lateral Rehabilitation and Inspection Task Committee Meeting	TCC 302

Track A, B & C	Track D & E	Track F & G	Track H & I	
Planning and Design	Condition Assessment	Construction and Rehab	Multidiscipline	

3:30 PM - 4:30 PM	Networking with Exhibitors Sponsored by Hazen & Sawyer	TCC Exhibit Hall 3rd Floor
3:30 PM - 4:30 PM	Headshot Café Sponsored by Black & Veatch	The Waterview Lounge
4:30 PM - 7:00 PM		TCC Exhibit Hall 3rd Floor
4:30 PM - 5:30 PM	A6 - Resiliency and Accessibility in Large Diameter Pipeline Systems	TCC 124-125
4:30 PM - 5:30 PM	B6 – Sustainable Development and Long-Term Protection of Critical	TCC 122-123
4.001777 3.501777	Water Infrastructure	100 122-125
4:30 PM - 5:30 PM	C6 – Surge Pressure and Air Release Design	TCC 120-121
4:30 PM - 5:30 PM	D6 – Case Studies	TCC 118-119
4:30 PM - 5:30 PM	E6 – Surveying Panel Session	TCC 116-117
4:30 PM - 5:30 PM	F6 – Tunneling Collaborative Risk Management	TCC 114-115
4:30 PM - 5:30 PM	G6 – Metallic Pipe Linings	TCC 107-109
4:30 PM - 5:30 PM	H6 – Ethics in Engineering Panel Session	TCC 112
4:30 PM - 5:30 PM	16 - Utility Depth Discrepancies, and the Future of Utility Engineering	TCC 111
6:30 PM - 9:30 PM	Off-Site Reception Sponsored by Structural Technologies	Yacht StarShip
Wednesday, Aug	gust 13, 2025	
7:00 AM - 8:00 AM	Breakfast	TCC Plenary 3rd Floor
7:30 AM - 9:30 AM	Registration	TCC 2nd Floor Lobby
8:00 AM - 9:30 AM	A7 – Tunneling and Large Diameter Pipeline Installation	TCC 124-125
8:00 AM - 9:30 AM	B7 - Complexities in Route Analysis	TCC 122-123
8:00 AM - 9:30 AM	C7 – Pipeline Planning, Design, and Cost Estimating Insights	TCC 120-121
8:00 AM - 9:30 AM	D7 – DIP Assessment	TCC 118-119
8:00 AM - 9:30 AM	E7 – New Technology for PCCP Inspections	TCC 116-117
8:00 AM - 9:30 AM	F7 - Rehabilitating Water and Sewer Mains	TCC 114-115
8:00 AM - 9:30 AM	G7 – Large Diameter Pipeline Rehab and Risk Mitigation	TCC 107-109
8:00 AM - 9:30 AM	H7 - Smart Pipeline Management: Data, AI, and Optimization Strate	egies TCC 112
8:00 AM - 9:30 AM	17 – AI and Asset Management	TCC 111
9:30 AM - 10:00 AM	Networking Break Sponsored by Dallas 1 Construction and Development	TCC Plenary 3rd Floor
10.00 000 = 11.30 000	A8 – Innovative Lift Station and Sewer Design Projects	TCC 124-125
10:00 AM - 11:30 AM		TCC 122-123
10:00 AM - 11:30 AM		TCC 120-121
10.00 AW - 11.30 AW	and Seismic Resilience	100 120-121
10:00 AM - 11:30 AM	D8 - AI in Water and Rehabilitation	TCC 118-119
10:00 AM - 11:30 AM	E8 – Data-Driven Water Pipeline Management	TCC 116-117
10:00 AM - 11:30 AM	F8 - Technical Assessments of Rehabilitated Pipe	TCC 114-115
10:00 AM - 11:30 AM	G8 - Sewer Pipeline Rehabilitation	TCC 107-109
10:00 AM - 11:30 AM	H8 - Monitoring and Protection: Surveys, Sensors, and Spray Coatin	gs TCC 112
10:00 AM - 11:30 AM	18 – Asset Management using GIS and CCTV	TCC 111
1:00 PM - 4:30 PM	Technical Tour – David L. Tippin Water Treatment Facility & Hillsborough River Dam	Off-Site Tour
1:00 PM - 7:00 PM	UESI Golf Tournament	Rogers Park Golf Course

Monday, Aug	gust 11							
10:30 am - 12:00 pm	Technical Session 1							
A1: Innovative Pipeline Design and Access Solutions Moderator: Adam Braun	B1: Innovative Rehabilitation and Design Strategies Moderator: Cecilia Dean	C1: Transient Modeling for Pipeline Systems Moderator: Nathan Cobler	D1: Pipeline Predictive Models Moderator: Matt Gallagher	E1: PCCP Management Moderator: Evan Biedenbach	F1: And Now For Something Really Different Moderator: Samruddhi (Sam) Jagtap	G1: Construction of Deep Tunnels Moderator: Jaime Ordonez	H1: Trenchless: HDD, Optimization, and Concrete Pipe Installations Moderator: Alon Garri	11: Pipeline Material Selection and Stress Analysis Moderator: Megan Campbell
144: Is Your Pipe Design Too Flexible? Comparing Flexible Pipe Deflection Design Assumptions to Actual Results, Ben Stephens, Emily Acastr 83: Overcoming by Going Under: Back-to- Back Inverted Siphons Make Way for a New River in Fort Worth, Josh Kercho, Liam Conlan, Carl DeZee 299: Design of Roll-Out and Lift-Out Sections for Improved Pipeline Access, Chris Sundberg, Motthew Gallo, Madelyn Rubin	338: Fast-paced Land Acquisition and Pipeline Design, Matthew O'Connox, Andrew Starling 326: A Strategic Decision- Making Framework for CIPP Liner Evaluation in OC SAN Sewer Rehabilitation, Nita Kazi, Ali Alan, Patrick Stahl, Victoria Pilko, Pegah Bahravan, Alexis Hahmdal 51: SimaPro-Based Comparative Ecological Impact Assessment of CIPP Renewal and Open-Trench Pipeline Replacement, Goyatri Thakre, Eesha Karkhanis, Vinayak Kaushal, Mahammad Nayafi	280: Combined Hydraulic and Transient Models for the Toledo 78-inch Water Transmission Pipeline, Hunter Hunson 71: Transient Considerations for Design of New or Retrofit Wastewater Pump Stations on New and Existing Force Mains, Katle Davis, Gine Cashan 213: Working With Combined Sewers Geometric and Hydraulic Elements of Cleveland Egg-Shaped Sewers, Kevin Indiager	333: Assessing Pipeline Failure Hotspots and Vulnerabilities: A Spatial and Probabilistic Risk Analysis, Yasir Mahmood, Ying Huang 344: A Machine Learning- Based Interpretable Glass- Box Model for Pipeline Failure Mode Prediction Considering Quantitative Coupling Factors, January Ding, Junyi Duan, Chengcheng Too, Ying Huang 44: A Comparison of Finite Element Analysis Results with ASCE Manual of Practice 145: Design of Close-Fit Liners for Rehab of Gravity Pipes, Matthew Richie, Andy Sherwin, Jesse Beaver	283: Pressure Points: At What Pressure Should Pipe be Evaluated?, Jane Burnett, Jared Svagera, Russ Deason, Olivia Olisztyn-Budry, Nicholas Winkelmann, Jerry Sneadd 211: Numerous Paths, One Destination: Comparisons of North American Condition Assessment Programs, Scatt Jouch, John Norton, Glenn Edgeman, Graham Bell, Roberto Mascarenhas 267: Inspecting and Repairing Large Diameter PCCP in a Single Outage: Experience from Silicon Valley, Peter Nardini, Kristen Peterson, Joel Jenkins, Ryan Littell, Christian Ruiz	27: Effectively Purging a Decommissioned Natural Gas Distribution Network, Guotwa U, Luke Prohaske, Randy Uhrata, Michelle Mayer, Michael Archard, Hamid Bidmus 252: Grout Filling and Pipeline Abandonment: A Comprehensive Approach to Nearly 50 Miles of Gas Pipeline at Southern Company/Nicor Gas Dubuque Line, Mark Salvatare 92: Enhancing Pipeline Integrity Through Grouted Sleeve Repairs: A Focus on Axial Strain Capacity, Mahammad Hossein, Hassein Daneshvar	264: Between Rock and Hard Place!!! A Creative Underground Solution To Very Challenging Surface Conditions, Rami Issa, Rishi Bhottarai 166: The Occoquan River Crossing was a BLAST, Tim Bulland 210: Three Mains, Two Reservoirs, One Goal: Vancouver's Water Mains are Ready to Shake Things Up, Reid Mele, Mark Waterworth, Angus Milne	96: Highlights of the High Life-Miami Beach's Horizontal Directional Drill Case Study, Shari Raminez, Adrian Reid, Louis Gaudio 239: Trenchless Installation of Concrete Pressure Pipes for Water and Wastewater Applications, Brad Ryan, Yan Lan, Tylar Corcoran 113: Evaluation of Airborne Contaminants and Potential Health Hazards in Cured-in-Place Pipe Rehabilitation Projects, Salar Bavilinezhad, Mohammad Najah, Vinayak Kaushal, William Elledge, Burak Kaynak, Pana Hamidzadeh	81: Assessing Stress Intensity Factors for Large- Diameter Buried Water Pipes Using Finite Element Methods, Abu Hena Muntakim, Kenny Farrow, Chris Rossiter, Bobby Virdi 206: Calculations for Above Ground Installations of High Density Polyethylene, Alan Ambler, Ban Landry 220: How Pipeline Material Selection Can Mitigate Challenges of AWWA 2023 SOTWI Survey, Roy Mundy
1:30 pm - 3:00 pm	Technical Session 2							
A2: Urban Pipeline Construction Innovations and Design Resiliency Moderator: Matthew Durham	B2: Water Supply and Reuse in South Florida Moderator: Omar Rodriguez	C2: Hydraulic Engineering for Pipeline Systems Moderator: Sarenna Moore	D2: O&M-Sewer and Natural Gas Moderator: Shelbi Johnson	E2: Asset Management Moderator: Julie Hansen Reviewer: Robin Kumar	F2: Atmospheric Emissions with CIPP Moderator: William Fisher Reviewer: Daniel Applegate	G2: CFRP Sanitary Sewer Case Studies Moderator: Peter Brask	H2: Innovations in SUE Moderator: David Moore	12: Leveraging Tools for Leakage Detection Moderator: Diego Rivera
309: Urban Pipeline Construction at Night-A Willamette Water Supply Case Study, Scott Gibson 201: Under High Pressure-Relining a 90 Year-Old Pipeline, Taylor Lithgow, Abdelmoniem Abdelsalam 237: Hydraulic Pickleball: Winning Stillwater's Resiliency Game by Sending Water Back and Forth, Enka Coopet, Louis Japaolo, Chris Humes	70: Behind the Scenes: A Highlight Reel of Specialty Engineering Services for Hillsborough County's Newest 42/48-inch Pipeline, Brian Glynn, Thomas Crass, Jesse Ellis, Kendall Ryan 149: Dual-Use Pipeline Interconnect to Eliminate WRF River Discharges, Mike McGee, Brian Hickey, Talya Birkle 16: Two Cities; One Vision: A Successful Beneficial Reuse Project with a Record-Setting Horizontal Directional Drill, Thomas Nagai, India Shukla, Jeffrey Pearson, Juan Barreneche	169: Moving Water Over Mountains, Aric Farnsworth 261: The Flow Trend Is Your Friend Until It Ends: What Happens When You Tie Two Major Raw Water Supply Systems Together?, Rami Issa, No Shi 350: Possible Effects of New Accessory Dwelling Units in Water Distribution Systems, Kovem Carpin	7: Condition Assessment Program for 46-Year-Old Sanitary Forcemains in the Arctic Region of Canada, Olughengy thikunle 215: From Inspection to Action: Seven Years of North Texas Municipal Water District's Multi- Sensor Inspection Outcomes, Kirstin Feng, Scatt Hoelzle, Stephen Johnson, Amin Tehrani 259: Assessing the Impact of Network Topology on Seismic Resilience in Gas Pipeline Networks, Sunaya Sharveen, Sondesh Adhikan, Abhijit Roy, Mansen Shahandashii	226: Advanced Techniques for Spatial Data Collection and Analysis, Mike Jacobson, Edward Advans 79: Managing Pipelines Below Major Freeways and Other Critical Infrastructure, Britt Klein 11: Holy Toledo! Part 2-Asset Management of a WWII Era 78" Raw Water Steel Pipeline, Robert Card	105: Assessment of Atmospheric Chemical Emissions Emitted During Cured-in-Place Pipe Method for Sewer Pipe Rehabilitation, Rasoul Abbas 73: A Comprehensive Analysis of Styrene Emissions in Cured-in- Place Pipe Installations Using Polyester (Styrene- Based) Resin Liners Across Multiple Jobsites, Parisa Beigvand, Burck Koynak, Mothammad Najoli, William Elledge, Vinayak Kaushal, Ayout Mahammadi 76: Evolving Design Considerations for UV-Light Cured and Reinforced CIPP Lining Systems, Jeff Maier	33: Hampton Roads Sanitary District York River Treatment Plant Pipeline Rehabilitation Project, Ann Capelond, Anna Pridmare, Atliana Bolton 243: Thinking of CFRP for Repairing More Than Just Pipes for Wastewater Applications - A Case Study, Plyush Garg, Brandon Keezer, Rasko Ojdrovic, Cecilia Dean, Mikle Figlio 349: Structural Rehabilitation of a Critical 54-inch Force Main in Downtown Tampa, Timothy Palme, Tam Wilson, Inck Fems, Charlie Lynch	327: Suitability of Ground Penetrating Radar in Texas: Best Practices and Lessons Learned, Harshir Shukla, Cesar Quiraga, Luke Cooper, Gary Young 174: Enhancing SUE Investigations and Data Quality with 360-Degree Photogrammetry, Ryan Mikutsky, Michael Woods 214: Virtual Design and Construction for Pipelines, Firat Sever, Chanchal Bhakat	303: Leveraging the Design-Build Approach for Enhanced Efficiency and Cost Savings for Pipeline Rehabilitation, Emily Cemic, Anna Pridmore 29: Unearthing Success: Managing Utility Conflicts on Ontario Line, Tylor Bottorff 57: Socio-Economic Analysis for Open-Trench Excavation and Trenchless Cured-in-Place Pipe Methods for Wastewater Applications, Gayatri Thokre, Vinayak Kaushal, Mohammad Najafi

Information and Drilling

Analysis in Horizontal

Park, Alireza Bayat

Directional Drilling, Inshik

Monday, Aug	just 11 (continu	ed)						
00 pm - 5:30 pm	Technical Session 3							
B: Advancements be Liner Design and habilitation bederator: George Farah	B3: Pressure Pipeline Lining and Rehabilitation Moderator: Colleen Howard	C3: Trenchless Design Challenges Moderator: Ben Stephens	D3: Water Loss and Pipeline Inventory Moderator: Ran Mick	E3: Seismic Considerations Moderator: William Brick	F3: CFRP Case Studies for Non-Potable Water Moderator: Christine Ellenberger	G3: Florida Case Studies Moderator: Charles Marsh	H3: Trenchless Pipeline Rehabilitation Moderator: Natalie Crank	13: Pipeline Installation and Resiliency Moderator: Victor Nataly
56: Evaluating the Effect f Host Pipe's Integrity in Determination of mer Thickness in pray-in-Place Pipe (IPP) Application for inderground Pipes, Jaid ornani, Kawahreet Kaw, Sanaz halambor, Mahammad Najahi 35: Transitioning to SCE MOP 145 for lose-Fit Liner Design of irrular Gravity Pipes, and Kazman, Chris Macey, Norman International Mahammadamin Tara 17: Planning for Not-Somenchless Large Diameter renchless Rehab; Lessons earned & Case Studies, anya Jetten	225: Overcoming Challenges of Pipeline Rehabilitation in the Grand Canyon: Bright Angel Pipeline Sliplining, Keith Bushchecker, Nicholas Homphrey, Abigoil Tanner 37: How the Design and Rehabilitation of Twenty Thousand Feet of Severely Distressed PCCP was Completed in Just 12 Months, Michael McReynalds, Seth Urban, Nancy Baker, Ezequiel Mantanez, Cristion Ovalle 229: Applicability of Hole-Spanning Design Equations and FEM Modeling for Carbon Steel Pipe Lined with Spray Applied Pipe Lining, Kawalpreet Kour, Ehson Rajole, Zoid Momani, Sanaz Gholumbor, Mohammand Najafi	43: Crossing an Iconic Austin Landmark— Lady Bird Lake, A Comprehensive Study on River Crossing Alternatives, Jing Ling, Moven Chowdhory, Francisco Guenero 287: Building Success Together: Collaborative Approaches to Horizontal Directional Drilling with Steel Pipe, Matthew Durham, David Wehner 353: Promoting Sustainability in Smart Cities Through Trenchless Technology: A Path to Efficient Urban Infrastructure Management, Shima Zore, Mohammad Najafi, Parisa Beigvand, Arosh Arizi, Rasaul Abbas, Vinoyak Kaushol	268: Improving Asset Inventory Data Quality for Water and Wastewater Pipe: State-Of-The-Art Review, Rum Krishna Mazumder, Swaranjit Roy, Khalid Kaddoura, Dan Koo 308: Performance Evaluation of Small Diameter Cast Iron Mains and Their Role in Water Loss, Sharanja Ge 232: Estimation of Leak Phenomena in Service Steel Pipeline System by Using Pressure Wave Propagation Field in Non-Steady Water Flow Conditions, Jetsuya Suzuki, Taiki Hagiwara, Asada Yohei	32: Thrust Restraint Analysis of PCCP Using Non-linear Finite Element Analysis, a Comparison Between LCP vs ECP, Mascod Hajali, Ikram Elaz, Ashan McNealy 238: Numerical Study of Buried Pipelines Backfilled of Controlled Low Strength Material Crossing Strike- Slip Fault, Che-Yu Chang, Hsuanchih Yang, Wei-kuang Chang 235: Detecting Seismic Hydrodynamic Pressure in an In-Service Pipeline System for Agricultural Irrigation Through On-Site Monitoring, Taiki Hagiwara, Takashi Ohkuba, Kaani Hashino	179: Trenchless Pipeline Structural Renewal in the South of France, Enk Vimond, Rasko Ojdrovic, Brent Boss, Adrian Muelo, Atriana Bolton 156: Keeping it Together- Emergency Response Collaboration in the face of Failing Infrastructure, Brandon Reider 141: Making It Over the Hill: Challenges Faced During the FRP Rehabilitation of Steel Stormwater Pump Station Discharge Pipelines, Raza Fereidoordar, Ben Stephens, Timothy Pateria	82: The LaSalle Street Drainage Improvements Design Build Case Study, Omar Rodriguez, Fernando Navanete 148: Buying Pipe and Fittings, How Hard Can It Be?, Jessica Hernandez 345: Replacing a 70-year-old Force Main in the Heart of Downtown Tampa—A Design-Build Success Story, Timathy Palmes, Baud Baird, Charlie Lynch, Jack Fernas, Tam Wilson, Eric Weiss	142: Retrospective of 15 years for Spray Applied Geopolymer Mortar Linings (SAPL), Joe Royer 66: Under Pressure: Myriad Challenges in Replacing a Critical Water Transmission Main, Matt Gollagher, Chris Stewart 337: Innovative Utility Relocation Strategies: LA-39 Realignment and Mississippi River Sediment Diversion Project, Ali Alavi, Brad Clark	241: Open-Cut Installation Renovations, Auster Howard 269: Putting Resiliency to the Test — How the SAWS ASR Pipeline has Stood the Test of Time, Januathan Varheis, Vicente Garza 341: Traversing Rivers and Valleys with the Righ Pipe, Devek Helson, First Sever
uesday, Aug	just 12							
:00 am – 10:30 am	Technical Session 4							
4: Optimizing lorizontal Directional crilling loderator: Scott Gibson	B4: Collaborative Solutions for Complex Infrastructure Projects in Florida Moderator: Shooqing Ge	C4: Large Diameter HDD Design Moderator: francisco Guerrero	D4: AI and Modeling Pipeline Conditions Moderator: Gindy Patton	E4: Metallic Pipe Leak Detection Moderator: Ashan McNealy Reviewer: Logan Fesenmair Black	F4: When Bypassing Impacts Operations	G4: Time is of the Essence- Emergency Replacement Moderator: Natalie Parks	H4: Pipeline Projects in Action: Fast-Tracking, Microtunneling, and Urban Replacements Moderator: Ryan Pearson	14: Workforce Challenges and Solutions Networking Breakfast and Workshop Moderator: Anna Pridmore
91: Efficient Techniques to Stay On-Time and telow Budget: A fuccessful 3,000 LF intercoastal HDD Water Main Installation, Jordan Maker 263: Horizontal Directional Drilling easibility Analysis and case Studies, Chantel Baron 02: Value of Geological	155: Bridging the Bay: Using Collaborative Communication for Project Success, Adriell Shnkissoon, Kimoni Thomas 272: Integrating New Infrastructure Improvements with Existing Utilities, Ana Julia Delamne Salome, Jessica Hernandez 293: Unforeseen Challenges in a Seemingly	158: Design of Large Diameter HDPE Wastewater Force Main via Horizontal Directional Drilling Under the Colorado River, Nick Lowe, Kane Wei, John Buser 254: Ductile Iron Pipe Horizontal Directional Drilling Pre-Design, Design, and Construction, Peter Armans, John Simpson	26: Visualizing the Z-Value Uncertainty in 3D Utility Models, James Anspach, Roy Shugill, John Campbell 274: Utilizing Artificial Intelligence to Support the City of Miami Beach SSES & Biscayne Bay Water Quality Improvement Program, Samer Alkhath, Patricia Rendon 227: Condition Monitoring	134: The Relevance of Acoustic Pipe Condition Assessment to the Structural Integrity of Water Mains, Reza Maslemi, Valentin Burtea 233: Burst Localization in Urban Water Supply Networks Using Acoustic Time Reversal Technique, Muhammad Waqar, Mohamed Houcem Eddine Ben Arab, Moez Louati, Mohamed S. Ghidanni	165: Felix C. Davis WWTP Emergency Rehabilitations, James Reigart, Chad Abrams 286: Don't Get Swamped- Keys to Bypass Pumping Success, Grant Misterly, Brandon Lowhern, Chris Kryam 129: Creek Considerations: Large Diameter Sewer Replacement	65: Emergency CFRP Repair of the City of Sacramento 120-Inch RCP Pioneer Outfall: Railroads, Levees, and Vacuum Conditions, Mark Pappe, Timathy Moresco, James Pollack, Uday Sant 127: Threading the Needle: Building Dual 42" Mains in Becks Run Road to Keep Pittsburgh's Water On, Nick Lewis	297: Time is of the Essence – How St. Johns County Fast-tracked 15 Miles of Pipeline Improvements, Christine Ellenburger, Gordan Smith, Josh Sowards 298: Microtunneling Under I-75 to Expand Sewer System Capacity in Venice, Florida, Kim Hanson, Drew Coleman	364: Workforce Challenges and Solutions Networking Breakfast an Workshop, Anna Pridmare, Osai Robinson, Cecilia Dean

289: Lessons Learned

Detection, Jacqueline Corey

From 30&20-inch CIP Leak

Mohamed S. Ghidaoui

Creek, Bryanna Batchelar

Considerations at Lisbon

89: A New Design Method

for Anchor Blocks Used

With HDPE Pipelines, Harry

160: Urban Utility

Replacements, Art,

Farah, Sorenna Moore

Science or Both?, George

Learning Approach, Mahnaz

for Sewer Networks:

An Ensemble Machine

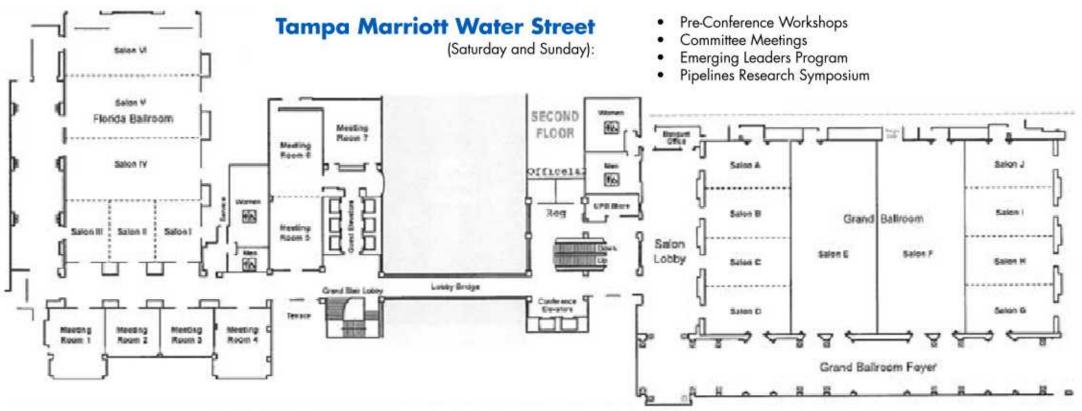

Rouhi, Mohammad Najafi, Vinayak

2:00 pm - 3:30 pm	Technical Session 5	owel						
A5: Seismic and Geohazard Resilience n Pipeline Design Moderator: Susanne Lockhart	B5: Water Transmission and Distribution Design Moderator: Nancy Maschke	C5: Fast Paced and Phased Design Challenges Moderator: Scott Phillips	D5: O&M-Water Systems Moderator: Kristen Peterson	E5: PCCP Condition Assessment Moderator: Mike Jacobson	F5: Geospatial Tools for Rehabilitation Moderator: Jenifer Talum	G5: Living Case Studies Moderator: Maria Contreras	H5: Advancing Pipeline Integrity: Soil, Stress, and Non-Invasive Assessment Moderator: Joel Koenig	15: Innovations in Pipeline Design, Inspections and Installation Moderator: Samuntha OFarrell
278: Defining Pipeline Serviceability from a Seismic Performance Assessment Lens, Jesska Ramas, Brad Wham 334: Axial Resistance in Shallow Buried and Deep Buried Pipelines Subjected to Ground Deformation, Sa Rajah 245: How to Design Geohazard Resistant Steel Pipe in Critical Fault Crossing Areas, Polynikis Vazeuras, Brent Kell, Richard Mielke, Spyras Karamanos	168: Construction Sequencing and Phase Planning for Large-Diameter Urban Waterlines, Aric Farnsworth, Ryan Pearson 161: Taking a "SIP" - Implementing JEA's Southside Integrated Piping System in Jacksonville, Florida, Christine Ellenberger, Larry Grann, Elizabeth DiMea 291: Design of a Water Distribution System in Japan Using US Standards and Japanese Regulations, Janathan Kunay, Clay Yappan	203: It's Just a Phase – Coordinating Multiple Separate Ongoing Developments To Meet City Regionalization Desires, David Off 277: The Art of Doing Twice the Work in Half the Time: A Programmatic Approach to Accelerating Population Growth Demands, Marya Setten, Matthew Beanett 128: A Twist on Collaborative Delivery – Construction Manager At Risk and Progressive Design, Ron Mick, Jaby Flann, Wayne Lee, Tam Prolit, Alan Davis	45: Striking a Balance in the North: How Edmonton Gets the Most from Its Water Transmission Main Condition Assessment Program, Justin Hebner, Andrew (AI) Rees 234: UAV Technology: From In the Clouds to Below the Surface, Chandler Corpenter, Stephanie Segler 355: A Review of the Challenges to Large Diameter Water Pipeline Maintenance Inspections, Jim Geisbush, Madhuri Arjun	314: Risk of Failure of PCCP With Scattered Wire Breaks, Mehdi Zarghamee 18: PCCP Condition Assessment – How Much Data is Too Much Data?, Piyush Garg, Rasko Ojdravic 34: Using Multifrequency Near Field Testing to Assess PCCP Mains with Multiple Pipe Classes, Ad Shatat, Martin Korz	246: The City of Tampa's Westshore Water Main Rehabilitation 3.2 Mile Pipe Bursting Project, Akm Amblar, Ray McKenzie 5: Using Inertial Navigation Technology to Obtain Critical Pipeline Data, Daryl Reid, Otto Balkintin 140: Wastewater Lift Stations Concrete Condition Assessment Utilizing LIDAR Measurements and Digital 3-D Images, Maziar Mahdavi, Bad Watsan, Alan Silva, Amin Tehrani, Scott Hoelzle	170: Hillsborough County's Commitment to I/I Reduction - Pre/Post Results of a Collection System Rehabilitation Program, Zach Smierciak, John Appenzeller 275: From Corrosion to Resilience: Innovative Pipe Rehabilitation Solution Boosts Reliability for Silicon Valley Clean Water, Anir Bhagwat, Xiongquan Li, Travis Stevens, Lance Secrest 200: Evaluation of Polymeric Spray-In-Place Pipe (SIPP) Liners Under Elevated Temperature Conditions for Nuclear Industry Applications, Sanaz Ghalambor, Diego Calderon, Kowalpreet Kaur, Brandon Caldwell, Mohammad Najafi	240: Soil Migration and Buried Pipe, Amster Howard, Jeffrey Baschert 281: Gross Wrapping Stress of Prestressing Wire and its Effect on Mechanical Behavior of PCCP, David Andres, Idair Espinosa, Ikram Efaz, Mosood Hojali, Alan Bair, Robert King, Adam Kaebel, Ashan McHealy 300: Pilot Project and Validation of Non-Invasive Pipeline Assessment for Localized Wall Loss Detection, Cameron White, Wendy Andrya	285: Innovative Methods for Welding, Inspections, and Quality Control in Large-Diameter Pipeline Projects, Kyle Anderson 346: Integrating Water and Sanitary Infrastructure in Major Bridge Replacement: King Avenue Crossing, Warrer County, Ohio, Ali Alavi, Brad Chark 185: Fort Myers Wellfield Expansion Program — Race Against Time to Install Miles of Raw Water Pipelines, Sergio Baltadano, Milia McGoo, Tyler Weinand
4:30 pm - 5:30 pm	Technical Session 6							1
A6: Resiliency and Accessibility in Large Diameter Pipeline Systems Moderator: Nicholus Kallmyer	B6: Sustainable Development and Long- Term Protection of Critical Water Infrastructure Moderator: Amin Tehrani	C6: Surge Pressure and Air Release Design Moderator: Stephen Boros	D6: Case Studies Moderator: Kara Britt	E6: Surveying Panel Session Moderator: Allan Ng	F6: Tunneling Collaborative Risk Management Moderator: Dan Atamba	G6: Metallic Pipe Linings Moderator: Jeffrey Shoof	H6: Ethics in Engineering Panel Session Moderator: Anna Pridmore	I6: Utility Depth Discrepancies, and the Future of Utility Engineering Moderator: Tomic Gill
188: Enhancing Resiliency and Increasing Redundancy for a Regional Water Authority: Adding Isolation Valves on Large Diameter Transmission Main, Javan Reynolds, Corey Brecht, Kerilyn Paris, Steve Roberts, Jason Matteo 52: Seismic Performance Evaluation of Multi-ply Metal Bellows Expansion Joints, Jinsop Kim	360: Mountain Home Air Force Base Water Resilience Project: Pump Station/Pipeline Design with Tight Schedule, Michael Georgalas 212: So, You Have Critical Pipelines. How Do You Protect/Perverse Rights to Them Over Time, and Plan for Uncertain Futures?, Robert Freeman	67: Estimation of Linepack Pressure Rise Due to Surge Within a Liquid Transmission Pipeline, Thomas till 157: Scour Velocities for Optimal Force Main Design: Rethinking the Need for Automatic Air Release Valves, Michael Demko, Shen Zhou	296: Condition Assessment and Rehabilitation Options for Peters Pipeline: A Case Study of Large Diameter Raw Water Main, Ali Alvoi, Barrel Evensen, Kent Narman, Matthew Petersen 279: City of Novi: A Story of Asset Management Best Practices, Mahino Sharma, Ben Croy, Scott Roselle, Samantha Vermillion, Evan Biedenbach	371: Digital Twin Mobile Mapping with Integrating LiDAR and GPR, Allow Ng, Matt Okuba	86: Construction Phase Collaborative Risk Management of Soft Ground Tunnels for the Integrated Pipeline Project in Texas, Charles Cameron, Shelly Hattan, Coy Veach, Ed Weaver 325: Leveraging Collaborative Delivery and Innovation for Record Breaking HDD Saving \$10M, Paul Lange	192: Autogenous Healing of Cement-Mortar Linings, John Bambel, Dennis Dechant 22: The Shawshank Rehabilitation, Authony Aderbold, Mahamed Gamal, John O'Leary, Ravi Kanitkor	363: Ethics in Engineering, Anna Pridmore	262: Evaluating Discrepancies in Utility Depth Measurements Using Electromagnetic Locators: A Statistical Analysis of Contributing Factors in the DFW Area, Joseph Morphy, Xi Xie 25: Back to the Future in the Utility Engineering Space, Tylar Bottorff

Wednesday,	August 13							
8:00 am - 9:30 am	Technical Session 7							
A7: Tunneling and Large Diameter Pipeline Installation Moderator: Felhard Meneses	B7: Complexities in Route Analysis Moderator: Harshit Shukla	C7: Pipeline Planning, Design, and Cost Estimating Insights Moderator: Adam Martin	D7: DIP Assessment Moderator: Marya Jetten	E7: New Technology for PCCP Inspections Moderator: Kenneth Kerr	F7: Rehabilitating Water and Sewer Mains Moderator: Himan Hojat Jalali	G7: Large Diameter Pipeline Rehab and Risk Mitigation Moderator: Jonathan Shirk	H7: Smart Pipeline Management: Data, AI, and Optimization Strategies Moderator: Mike Larsen	17: Al and Asset Management Moderator: Alexandra Isabel Gonzalez Vasquez
324: Assessment of Bearing Capacities and Failure Mechanisms of Socket Joints in Large Diameter PCCP Pipe Jacking: Insights from Zhengzhou, China, Zhou Hou, Huang Sheng, Bassang Ma, Samuel Arianatusm 260: Talks, Tracks, and Tunneling: How CM/GC Delivered 20 MGD of Wastewater Underneath Colorado's Railways, Jawis Stevens 62: An Integrated Approach for Locating Buried Bedrock Valleys for Tunnelling Projects, Robert Offori, Liscio Recoles, Rene Gomez, Caralyn Boane, Ben McClement	330: Sewer Shenanigans: A Deep Dive Into Wichita's 78-inch Interceptor Relocation, Michael Salinas, Diego Medrano 221: The Importance of Geomorphology Analysis in Minimizing Pipeline Failure Risks Along Creek Embankments, Amir Tobesti, Radingo Vizcaino 110: Navigating the Unknown – Water and Sewer Department Redundant Force Main Route Study, Luis Torres, Shari Ramirez, Starr Alfonso	175: Into the Matrix: Sewer Trunk Main Study and Multi-Alignment Decision Visualization, McKenna Godds, Dean Wha 95: Evaluating Buckling in Fusible PVC for Trenchless Installation, Jon Robison, Urso Campas, Tom Marti 282: From Concept to Completion: Improving Cost Estimates for Pipeline Projects, Samantha Ofarrell, Rager Reieler	318: Inspecting Small Pipes with Big Consequence - Case Studies on Condition Assessment of DIP and BWP at Freeway Crossings, Murat Engindeniz, Kay Bontrager 202: Leaching Damage Detection for Ductile Iron Pipes Using Ultrasonic Wave Pitch-Catch, Danglin Du, Samantha Rubin, Pranav Karve, Sankaran Mahadevan 35: Increasing the Life of Your Ductile Iron Pipe with 'Hot Spot' Protection, Janine Alexander	17: Pro-Active Knowledge-Based PCCP Pipe Asset Management Program, Scott Papawic, Paul Gagliardo, Kevin Weeks 320: Pickleballs and Patience: Thinking Outside the Box to Inspect a Critical 108-inch Force Main, Jeff Griffiths 189: Comparing Near Field Electromagnetic Inspection Tools, Bethany McDanald, Michael Higgins	265: Innovative Approaches to Water Main Replacement: Navigating Environmental Concerns and Spatial Constraints in Davie, Florida, Duve Clarke, Alfredo Montano, Lanssa Fania, Oscar Bello, Albert Ruiz 332: From Inception to Completion – Rehabilitation of Large Non-Circular Combined Sewers in Winnipeg Manitoba, Adam Braun, Nathan Kehler, Stray Connayer 257: Innovative Solutions for Historic Sewer Infrastructure: The Rehabilitation of DC Water's Northwest Boundary Trunk Sewer, Emily Cernic, Shikui-Steve Bian, Bisnat Ababe, Rasko Ojdrovic	85: Pushing Through Adversity: Sliplining Challenges and Solutions in Large-Diameter Sewer Rehabilitation in Boston, Massachusetts, Stelani Hantson, Irene McSweeney 339: Computational Assessment of Pitting Corrosion in Cast-Iron Pipelines Rehabilitated by Cured-in-Place-Pipe Liner, Junyi Duan, Chengcheng Iao, Xingyu Wang, Ying Huang 258: Parallel Paths: Overseeing Two Pipeline Rehabilitation Projects in Southern California, Garret Toombs, Ian McFatridge, Shalia Cobum	87: Data-Powered Strategies: Enhancing Pipeline Management for Small Water Systems, Gretz Vladeonu, Sepideh Yazdekhasti, Philip Bevons 154: City of Hamilton- Woodward Greenhill 2250mm (90in) Feedermain Leak Repair, Michael Zantingh, Harry Krims, Kevin Bantundge 180: Advancing the Science and Practice of Pipeline Condition Assessment in Sewer Pipes, Sihan Zhou, Dulcy Aliraham, Tam Iseley	219: Development of Dynamic Database for Proactive and Predictive Risk Management of Underground Pipelines, Ho Wang, Sreelakshmi Sreeharan, Hoo Wang, Homero Castaneda, Lei Wang 358: Artificial Intelligence Enabled Pipeline Integrity Management for Detection and Prediction of Corrosion Defects, Bingyan Cui, Hoo Wang
10:00 am - 11:30 am	Technical Session 8							
A8: Innovative Lift Station and Sewer Design Projects Moderator: Samenthe La Hee	B8: Navigating Urban Challenges Moderator: Inshik Park	C8: Advancements in Pipeline Design for Ground Deformation and Seismic Resilience Moderator: Coleman McClain	D8: Al in Water and Rehabilitation Moderator: Joseph Wager Reviewer: Benjamin McCray	E8: Data-Driven Water Pipeline Management Moderator: 0lens Lytvyn	F8: Technical Assessments of Rehabilitated Pipe Moderator: Brent Keil	G8: Sewer Pipeline Rehabilitation Moderator: Shelby Warchesik	H8: Monitoring and Protection: Surveys, Sensors, and Spray Coatings Moderator: Nite Kezi	18: Asset Management Using GIS and CCTV Moderator: Sri Rajah
58: Uncharted Wastewaters: Designing a Lift Station for a Region Still Under Design, McKenzie Cloud 271: We're Going to Need a Bigger Pump; Overview of Design and Construction of SAWS' Second Largest Lift Station and the E-54 Sanitary Sewer Project, Marshall Preas 90: Overcoming Complex Terrain – Engineering Fundamentals Behind ReWa's Gravity-Driven Sewer Operations, Cameron McGaw, Bret Lawey, Martin Deng	186: T-Minus 72 Hours: Installing Valves in a Congested Urban Setting, Kannor Bursaw 276: Shimming the Way Through - Collaborative Approach for Addressing Multi-Stakeholder Challenges, Fredity Betancourt, Ben Tumage, Michael Knowles, WWI Poczekii 306: Making My Way Downtown, Drilling Past and I'm Chip Bound: Designing a 16-mile Pipeline Fast, Jacob Pannell	177: Slippage Based Seismic Design Approach for Critical Ductile Iron Pipe Hospital Supply, Michael Britch 321: Axial Connection Force Capacity: Calculation Process for Seismic Design of Pipeline Systems, Halley Rae Rose, Brod Wham 207: Case Study for WWSP Welded Steel Pipe Seismic Design Approach, Mark Havekost, Michael Britch	348: Integration of Machine Learning and Finite Element Analysis for Assessing the Conditions of Cure-In-Place-Pipe Liner Materials for Damaged Pipe Rehabilitation, Hustikoo Yan, Junyi Duan, Chengcheng Tao, Ying Huang 139: Predicting Degradation Patterns in Water Distribution Networks and Its Influence on Pipe Failure, Reza Maslemi, Varsha Probhakar, Valentin Burtea, Shweta Gowdu 362: Applying a Purpose-Driven Methodology to Develop a Pipeline Condition Assessment Plan and Program, Roberto Mascarenhas, Andrew Nicholson, Ben Bryce	13: Enhancing Pipeline Integrity Management: Predictive Analytics and Probabilistic Applied Load Modeling for Water Transmission Networks, Khalid Kaddoura, Rabin Mady, Adil Mohamed, Khaled Reisha 42: Washington Suburban Sanitary Commission's Forensic Program: Leveraging Data by Performing Material Evaluation on Failed Metallic Water Mains, Blea Imma, Dwid Deik, Halle Yardaw 209: Study of Rehabilitation of Broken Wires in Prestressed Concrete Cylinder Pipe (PCCP) and Its Effect on The Structural Continuity of The Pipe, Ahmad Hareen	368: Experimental Assessment of Trenchless Rehabilitation for Pipeline Bends, Mally Sickler, Sina Senji, Brad Wham, Shideh Dashti 342: Validating Structural Performance of Internal Replacement Pipe Repaired Legacy Pipelines Under Excavation-Induced Transverse Deformations, Sina Senji, Brad Wham, Shideh Dashti 310: CFRP Repair of Distressed PCCP and Other Pipes, Mehati Zarghamee	40: Calculating the Cementitious Liner's Load Response to Produce an Efficient Wall Thickness, Naman Kampbell 132: Des Moines Water Reclamation Authority Rehabilitates 78-inch Reinforced Concrete Trunk Sewer Using Trenchless SpinCast Methods, Keith Wolker, Brett Paige 312: Design of Rehabilitation of the Failed Masonry Sewer WYE Intersection, Divyansh Kapoor, Laiz Vieira, Plyash Garg, Renni Zhao, Shikui Steve Bian, Anna Pridmare, Raska Ojdrovic	228: Insights on Condition Monitoring of Water Assets from the Results of an Industry Survey, Diego Calderon, Marjan Moradi, Mohammad Najoti, Vinayok Koushal 143: Using Sensors to Identify Point Sources of Pollution in a City of Atlanta Combined Sewer System, John Abrero, Cornellus Askew, Catnia Gunn 50: Optimizing Thermal Spray Coating Thicknesses on Varied Substrate Roughness Based on Pull- Off Tensile and Portable Adhesion Tests, Gul Badin, Ying Huang	6: Going Beyond NASSCO PACP Guidelines for Sewe Condition Assessment and Criticality Prioritization (With Case Studies), Diughenga Ibidunle 84: Leveraging Predictive Modeling of Disinfection Byproducts for Proactive Management of Water Systems – A Case Study, Sepideh Yazdekhasti, Greta Vindeanu, Cring Daly 97: Modernizing Utility Infrastructure Data Exchange and Security, Daniel Cally, Philip Meis

Pipelines 2025 Venue Overview | The conference will take place across two venues.

1st Floor Riverwalk (RW) RW 6 RW S 101 102 103 107 118 0 119 Ballroom A 120 121 122 123 0 Channels de Drive 124 125 Baliroom D Tampa Convention Center Garage 141 E Brorein St Franklin St.

Tampa Convention Center

(Sunday Reception, Monday through Wednesday):

- Opening Reception (Sunday Evening)
- Technical Program Sessions (1st Floor)
- Plenary Sessions (breakfast & lunch)
- Exhibit Hall

For Live Updates: Download the 2025 **UESI Pipelines Conference App** (Search in your app store.)

@uesi asce

Utility Engineering and Surveying Institute

Thank You to the 2025 Steering Committee

Steering Committee Conference Co-Chairs

Felipe Pulido, P.E., M.ASCE, Senior Project Manager, Jacobs Engineering Brad Baird, P.E., Deputy Administrator of Infrastructure, City of Tampa

Technical Program Co-Chairs

Alisa Gruber, P.E., M.ASCE, Pipeline Project Manager, STV, Inc Ross Standifer, P.E., M.ASCE, Principal Engineer, Arcadis U.S., Inc

Advisors to Technical Co-Chairs, Workshops and Posters

Khalid Kaddoura, Ph.D., P.Eng., M.ASCE, Team Lead – Pipeline Condition Assessment, GHD Richard Nichols, P.E., M.ASCE, Technical Director, Uni-Bell PVC Pipe Association

Exhibits and Sponsorship Co-Chairs

Jarred Jones, P.E., MBA, M.ASCE, Executive Director, North Charleston Sewer District and North Charleston District

Matthew Durham, M.ASCE, Sales Engineer, AMERICAN Cast Iron Pipe Company

International Chair

Diego Calderon, P.E., M.ASCE, Senior Project Engineer, Jacobs Engineering

UESI Pipelines Division ExCom Liaison

Jeff Shoaf, P.E., PMP, F.ASCE, Principal Engineer, San Diego County Water Authority
