

INVESTING IN THE *Future*

2021
Annual Report

ASCE
FOUNDATION

PRESIDENT'S *Message*

Dear friends and fellow Civil Engineers,

On behalf of the ASCE Foundation Board of Directors, Council of Trustees, and staff, I want to thank you for supporting the civil engineering profession in 2021! With your generosity and philanthropic leadership, we raised over \$2 million to support key ASCE programs.

Civil engineers are a collaborative community of innovative and creative problem solvers. The ASCE Foundation understands the importance of positioning civil engineers as dynamic, systems-oriented professionals leading transformative change in the built environment. We focus on raising funds to support key ASCE programs that serve civil engineers throughout their careers. These programs are vital to providing not only educational opportunities, but also building a camaraderie with colleagues where new initiatives and life-long friendships are formed.

The contributions from our donors have a direct impact on the civil engineering profession and the ASCE programs we support. It is very gratifying to have such loyal benefactors that share our excitement and passion for our profession. Your leadership today will give future civil engineers the knowledge, skills, and imagination to successfully build the communities of tomorrow. For we are the builders of today and tomorrow, from transportation systems to buildings to environmental protection and more.

In the following pages, you will find a detailed look at the programs your gifts to the ASCE Foundation impacted in 2021.

In 2022, as we continue our work to support the civil engineering profession and ensure the development of the next generation of great civil engineers, we will be combining our corporate operations with ASCE to optimize efficiency and elevate philanthropy throughout ASCE.

The ASCE Foundation will continue its work as the Society's fundraising wing, under the same name, with its board of directors reporting to the ASCE Board of Direction. This merger streamlines Foundation operations and reduces administrative filings and costs. It also better integrates the Foundation with ASCE operations and programs, without adversely impacting donor contributions or tax treatment of contributions and 100% of your gifts will continue to support programs.

We continue to be grateful for your generosity!

Sincerely,

A handwritten signature in black ink that reads "Gerry Schwartz". The signature is fluid and cursive, with "Gerry" on top and "Schwartz" below it.

H. G. "Gerry" Schwartz, Jr., Ph.D., P.E. Pres.02.ASCE, NAE
President

BOARD OF DIRECTORS & COUNCIL OF *Trustees*

2021 Board of Directors

President: H.G. "Gerry" Schwartz, Jr., Ph.D., P.E., Pres.02.ASCE, NAE

Vice President: Jon D. Magnusson, P.E., S.E., F.SEI, Dist.M.ASCE, NAE

Treasurer: Kancheepuram (Guna) N. Gunalan, Ph.D., P.E., D.GE., F.ASCE

Secretary: Dennis D. Truax, Ph.D., P.E., DEE, D.WRE, F.NSPE, F.ASCE

Director: Jean-Louis Briaud, Ph.D., P.E., D.GE, Dist.M.ASCE

Chair, Council of Trustees: Dallas Little, Ph.D., P.E., Dist.M.ASCE

Director: Thomas W. Smith, III, ENV SP, CAE, F.ASCE

Assistant Secretary: Christine Williams, CFRE, Aff.M.ASCE, Executive Vice President

Assistant Treasurer: Pete Shavalay, Aff.M.ASCE, & Chief Financial Officer, ASCE

| Total Net Assets | \$11,662,000 | \$11,714,000 |
| Total Liabilities & Net Assets | \$12,325,000 | \$12,003,000 |

ABOUT THE Foundation

OUR MISSION/VISION STATEMENT

The ASCE Foundation develops resources to build a stronger profession to meet the global challenges today and tomorrow.

Founded in 1994, the Foundation is the philanthropic arm of ASCE. Over the past 27 years, the Foundation has raised more than \$45 million for key ASCE programs focused on advancing the civil engineering profession and investing in helping ASCE members reach their vast potential. From the IMAX® film *Dream Big, Engineering our World*, ExCEEd Teaching Workshops, student activities, and Future World Vision to various Institute and sustainability initiatives, the Foundation is devoted to ensuring that ASCE programs have the resources necessary to support civil engineers and the profession around the globe.

FOUNDATION ROAD MAP

Investment

The ASCE Foundation cultivates and develops a culture of philanthropy to support ASCE activities and special projects to advance the civil engineering profession.

Activities

The ASCE Foundation engages the philanthropic community, invests in students as the next generation of civil engineers, shares information about the profession and infrastructure, and provides opportunities for professional and personal development and networking.

Immediate Outcomes

1-2 Years

Through Foundation-funded programs, ASCE members continue to grow and gain new knowledge and skills as individuals and professionals. The profession, Foundation and ASCE grow in positive and new directions as opportunities arise.

Ongoing Outcomes

3-5 Years

With strong professional networks and the availability of ASCE resources funded by the ASCE Foundation, civil engineers will have the skills and partnerships to create innovative sustainable solutions for the problems facing their community and communities across the globe.

Long-Term Impact

5+ Years

Through ASCE Foundation-funded programs, ASCE members will become successful thought leaders who solve pressing societal problems and improve quality of life while investing in the next generation and planning for a brighter future.

OUR Impact

In 2021, your donations helped to fund:

Education Programs

- 6 Student Activities Reimbursement (StAR) Fund Grants awarded to students to attend official ASCE events
- ExCEEEd Teaching Workshop attended by 24 participants
- Pre-College Outreach Activities including informational sessions for pre-college outreach champions, the New Faces of Civil Engineering, and other member-driven activities

Engineering Programs

- 2 videos on the 2021 Report Card for America's Infrastructure
- Further development of the Future World Vision Initiative and Platform
- Support for the Committee on Sustainability and the forthcoming ASCE Sustainability standards of practice
- Sustainable Parking Lot Project at ASCE World Headquarters in Reston, VA

Leadership Programs

- Grants for the Dayton, Lehigh, Sacramento, Toledo, and Virginia Sections for their centennial anniversary celebrations
- Eastern Iowa Younger Member Group's MRLC Grant focused on STEM activity kits and virtual K-12 Outreach
- Keynote speaker at the Virtual Younger Member Leadership Symposium

Student Programs

- 6 Student Outreach Grants for younger member group outreach and recruitment
- The 7-part virtual Workshop for Student Chapter Leaders video series
- Equipment and materials for the ASCE Virtual Concrete Canoe Competition+
- Support for Student Competitions including CI Student Days & the AEI International Student Design Competition

FUNDING Areas

Education Programs

Your gifts to the Education Fund supported programs such as ExCEEEd, Future World Vision, and K-12 Outreach programs. These programs – focused on the recruitment and education of the next generation of engineers – establish civil engineering as a problem-solving and innovative profession concerned with public health, safety, and welfare. Through these programs, engineers throughout their careers learn new skills, refine their existing skills, and expand their horizons to meet the challenges of today and prepare for the opportunities of tomorrow.

Engineering Programs

Your gifts to the Engineering Programs Fund supported key initiatives that permeate all areas and levels of ASCE. With your support in this area, the 2021 Report Card on America's Infrastructure, the work of the Committee on Sustainability, Future World Vision, and cutting-edge Institute initiatives reach and inspire ASCE members and their communities to reimagine the relationship between infrastructure and society. Through these programs and initiatives, the future of civil engineering is more exciting than ever.

Leadership Programs

Your gifts to the Leadership Fund supported programs focused on developing the leadership skills of ASCE Members at every stage of their careers. From programs such as the Multi-Region Leadership Conferences, the Younger Member Leadership Symposium, and Section Centennial anniversary grants, this fund creates opportunities for members to learn from their peers, expand their networks, and learn through a hands-on approach.

Student Activities

Your gifts to the Student Activities Fund go directly to investing in students and their development. ASCE Student Competitions and the Student Activities Reimbursement Fund [StAR Fund] provide civil engineering students with the opportunity to gain technical skills, build their professional networks, learn from their peers, and gain mentors in ASCE members. This past year, the Jean-Louis and Janet Briaud Endowed Fund for Student Activities was established thanks to a very generous gift from the Briaud family that will benefit students for years to come.

ENDOWED *Scholarships*

Endowed Scholarship Recipients 2021-2022

Thanks to the generous support of ASCE members and their families, the ASCE Foundation provides endowed scholarships to support ASCE student members in pursuing their formal education.

Lawrence W. And Francis W. Cox Scholarship | Civil Engineering – Amy Le, S.M.ASCE | University of California, Irvine

Eugene C. Figg, Jr. Civil Engineering Scholarship | Bridge Design and Construction – Sarah Carr, S.M.ASCE | Kansas State University

John Lenard Civil Engineering Scholarship | Water Supply or Environmental Engineering – Ariel Gold-McCoy, S.M.ASCE | University of Kentucky

Robert B.B. Moorman and Josephine N. Moorman Scholarship | Civil Engineering – Cesar Bedolla-Hurtado, S.M.ASCE | Washington State University

Y.C. Yang Civil Engineering Scholarship | Structural Engineering – Suzanna Barna, S.M.ASCE | University of Florida & Victoria Bucy, S.M.ASCE | California Baptist University

INSTITUTE *Programs*

The Foundation collaborates with ASCE Institutes to raise funds for their programs. These programs serve as an example of the Institute's stellar work and provide further opportunities for ASCE members to hone their skills, expand their horizons, and develop innovative and forward-thinking solutions to challenges that may be unique within each area of civil engineering.

Architectural Engineering Institute [AEI]

We support AEI's Professional Project Awards program and the International Student Design Competition. The Professional Project Awards showcase innovative projects that demonstrate the best in design creativity and construction methods, while the International Student Design Competition highlights the collaboration of multi-disciplinary architectural engineering student teams applying design and construction principles to a real-world project scenario.

Coasts, Oceans, Ports & Rivers Institute [COPRI]

We support the COPRI Research Fund, which was established in 2021 to invest in research and development activities to advance engineering in the coasts, oceans, ports and rivers. This fund supports projects that directly contribute to advancing quality data and develop industry-driven research concepts for new COPRI standards and manuals of practice.

Construction Institute [CI]

We support CI Student Days. CI Student Days is an annual event that brings together top engineering students from across the country with potential employers who are seeking new talent. A competition that simulates a general contractor's response to an request for proposal (RFP), this event provides students with the information and tools they need to stand out in a competitive job market.

Environmental & Water Resources Institute [EWRI]

We support the EWRI Pioneers in Groundwater Award. Each year this award is given to an exceptional leader within the EWRI community. The recipient presents the plenary lecture at the Annual Groundwater Symposium during the ASCE EWRI World Environmental & Water Resources Congress. Gifts to this fund help to endow the Pioneers in Groundwater Award and support the EWRI Groundwater Council's efforts to encourage outstanding students to study groundwater science and engineering.

Geo-Institute [G-I]

We support the Geo-Institute Student Participation Fund, which helps geotechnical engineering students attend Geo-Congress and supports regional & national student competitions. This fund assists with increasing student engagement in the Geo-Institute and student participation in Geo-Institute events and was generously supported by a dollar for dollar matching gift from G-I Past President Ed Kavazanjian, Jr., Ph.D., P.E., D.GE, Dist.M.ASCE, NAE.

Structural Engineering Institute [SEI]

We support the SEI Futures Fund. This fund supports strategic initiatives established by the SEI Futures Fund Board, such as promoting student interest in structural engineering, increasing younger-member involvement in SEI and providing opportunities for professional development to all SEI members.

FUTURE WORLD *Vision*

Future World Vision: A Year in Review

The ASCE Foundation provided more than \$1.3 million dollars to ASCE for the Future World Vision initiative in 2021.

Future World Vision reimagines the future of infrastructure through the exploration of unique innovative solutions to the challenges of the future. In doing so, it seeks to empower engineers to serve as the visionary thought leaders needed to seize the opportunities of the next half-century. It does this by turning a collection of deep research of future trends into future city world scenarios. These scenarios will provide the needed spark to engage in critical innovative discussions and actions needed to address challenges at a global scale.

University Seminars

In addition to presenting to over 100 universities and organizations, ASCE produced a module entitled *Future World Vision: An Innovative Forward-Looking Tool for Resilient Infrastructure*. The module for college students contains five units focused on exploring scenario planning, future engineering imperatives, and innovation. The intended outcomes of these modules are to educate students on the core emerging trends at the basis of the Future World Vision project, develop an understanding of future trends analysis and system-thinking, and foster creativity, innovation, and multi-disciplinary thought leadership.

Webinars

ASCE also hosted several Future World Vision webinars throughout 2021. These webinars discussed the potential changes to the built environment and civil engineering that will be caused by the fourth industrial revolution and the current age of rapidly advancing technology. These webinars discussed the future of infrastructure, the Mega-City 2070 platform, the potential impact of Future World Vision, and explored how to address the challenges of the future using a holistic approach to future trends and the grounded narrative of the Future World Vision city-worlds. These webinars remain available on the Future World Vision website.

"The farther out we look, the more it changes our view of the present."

- Alex McDowell on the driving principle of Future World Vision

Testimonials

Since the start of the Future World Vision initiative, ASCE has been engaging with multiple stakeholders from across public and private sectors, and academia, including presentations to several university professors and their students. Here are some of the things we heard:

"ASCE's Future World Vision platform is a multifaceted tool that helps visualize the infrastructure of the future and enables planners, engineers, and decision-makers to design, build and manage a future built environment that is functional, resilient, and sustainable. It is also an effective learning tool for educators and students interacting within an environment that allows for exchange of creative ideas and testing of potential solutions to pressing civil engineering problems." – Ali Maher, PhD, F.ASC, Professor and Director, Center for Advanced Infrastructure & Transportation, School of Engineering, Rutgers University.

"I have not seen 150 CEE undergrads ever as focused and energized as when Jerry [Buckwalter] presented the Future World Vision to them; it was clear that what he was proposing was what they thought they wanted to do as civil engineers." – Roberto Leon, P.E., F.SEI, Dist. M.ASCE, Virginia Tech

United Engineering Foundation Grant

In 2021, the Foundation received a grant from the United Engineering Foundation. The grant will fund a series of public education and outreach videos featuring Future World Vision. Watch for their launch in the second half of 2022! Thank you, United Engineering Foundation!

What's next?

The Future World Vision initiative reimagines the role of civil engineers in the years to come. Alongside making the necessary changes to the built environment to respond to the challenges of the next half-century, civil engineers will have the opportunity to be the leaders of the moment. To be the needed thought leaders and action-oriented systems integrators that will build a better future for people across the globe. For ASCE, the Future World Vision initiative is our response to this paradigm-shifting opportunity. In the coming years, ASCE will be utilizing Future World Vision across all programs to enhance ASCE's civic public outreach, recruitment, training, and industry engagement. The future of infrastructure has never looked more exciting. We cannot wait to continue this exploration of the future with you.

THANK YOU TO OUR 2021 *Donors!*

Listed in this report are the generous individuals and organizations making contributions to the ASCE Foundation between January 1 and December 31, 2021. Through these gifts, these donors helped fulfill our mission of building a stronger profession to meet the infrastructure challenges of the future around the globe.

1852 SOCIETY

Members of the 1852 Society are individuals whose extraordinary generosity to the ASCE Foundation totals \$100,000, or more, during their lifetime. The 1852 Society is named after the year ASCE was established, paying homage to ASCE's impressive history and tradition of achievements.

A LOOK INTO 2022

Future World Vision

- The Foundation's Future World Vision campaign continues in 2022, with a goal to raise an additional \$600,000 from ASCE members. There are many ways to support the program such as during your ASCE membership renewal and through the "Ways to Give" listed below.
- The Future World Vision: Mega City 2070 platform is being released during Engineer's week, February 2022.
- Future World Vision Public Outreach and Education videos will be released throughout the year thanks to a grant from the United Engineering Foundation!
- Look out for new updates on the project on the Future World Vision website (www.futureworldvision.org)!

Complete the Courtyard

- Assist us in completing the courtyard at ASCE headquarters with the purchase of an engraved paver while supplies last! Contact Foundation staff or visit <https://www.ascefoundation.org/complete-courtyard> to learn more.

WAYS TO *Give*

Make a one-time gift

At www.ascefoundation.org, or send a check to:
ASCE Foundation
1801 Alexander Bell Drive, Suite 100
Reston, VA 20191

Gift of Securities

Make a charitable contribution of stocks, bonds and/or mutual funds.

Employer Match

Have your employer match your donation.

Join the Sustainers Circle

Make a secure monthly recurring gift from a credit card or bank account. Visit www.ascefoundation.org/sustainers to learn more.

Legacy

Extend your support with a legacy gift in your estate plan.
Learn more at www.asce.giftlegacy.com.

Honorarium/Speaker Fee

Donate your honorarium, speaker fee or award prize. Contact the Foundation team for more information.
