

Membership Made Easy

Growing your student chapter is easier than ever with new recruiting tools.

7 Tips for Growing Your ASCE Student Chapter Membership

1. Find your ASCE membership kick-off kit. Your faculty advisor received a box containing our new 3-poster series, a pack of 25 brochures, and some giveaways to distribute during your classroom presentations, your club fair or your back-to-school welcome social. Need more supplies?
2. Schedule your classroom presentations. Download our short presentation template and customize it as needed. We've embedded a new student membership video in the presentation.
3. Show your Civil Engineering spirit! Display the new ASCE posters in prominent locations. The 3 designs look great grouped together—order more for maximum impact. If space is limited, swap them out over the course of the semester. Not allowed to hang posters? Download the poster projection file to project the image on the wall.
4. Up your Club Fair game. Show the new membership video on a tablet, use brochure blocks to attract fellow builders' attention, order great giveaways, display your Concrete Canoe or all the above! Order more resources at www.ascemembershipkit.org.
5. Promotion, Promotion, Promotion. Whether it's your welcome barbeque, a site tour, or your regular meeting, use the downloadable flier template to promote all your events with a consistent and recognizable brand. When appropriate, be sure that all students know they are welcome to attend.
6. Add some professional polish to your meetings. Joining ASCE as a student gets you one step closer to your career as a civil engineer. Set the tone for your chapter meetings by using the downloadable PowerPoint template to add some polish to your meeting presentations, show a video from the video page to highlight a key professional issue, or invite ASCE professional members to present on their work and share information about their area of practice.
7. Get even more benefits. Remember to promote all the additional benefits your chapter members receive when they also register for their ASCE Society membership—it's free for students! Find applications in the toolkit.

Share these tips with your Student Chapter leaders. Have a great year!

The ASCE logo is located in the bottom right corner of the page. It consists of the letters "ASCE" in a bold, blue, sans-serif font. To the left of the letters is a stylized graphic of three horizontal lines of varying lengths, stacked vertically, representing a bridge or a structural element.
